Attention: 

25X1

Dear Phil,

Enclosed you will find drawings AN8025, AN8027 and AN8029. These are drawings that may aid Ray in determining how to package the Alice mix. We do not have the procurement specification MIL-C-6055, which you should obtain if possible.

There is also enclosed a clipping out of *Plastics World* about polyethelene liners that may be of interest. Once we settle on the packaging for the mixture, I believe it would be advisable to make up sample packs and put them through engineering tests. You might give this some thought as it will probably entail a new task.

Sincerely,

Joe
